WEB PROJECTS / WORK EXPERIENCE

NutriChef

(Nov 2023 - present)

Leading an ongoing MERN project, showcasing proficiency in React, MongoDB, and Node.js. Demonstrated agile development, deployed initial version on Vercel within a timeframe of 2 months.

Youtube Clone

(Sept 2023)

Built a complete responsive React.js powered youtube replica with dynamic content integration in a timespan of 7 days, deployed on Netlify.

PicsMart

(April 2023)

Crafted a college mini-project by integrating ReactJS and OpenAI's API, yielding an inventive image generation platform.

Netflix Clone

(Aug 2023)

Developed a high-fidelity clone of the Netflix official website using ReactJs, showcasing proficiency in frontend development and UI/UX design.

Tic-Tac-Toe

(Jan 2023)

Developed a interactive game using vanilla Js, highlighting coding finesse and creative design.

Portfolio website

(Sept 2023)

Developed dedicated platform to showcase all personal projects.
